Nakshatra is the term for lunar mansion in Hindu astrology. A nakshatra is one of 27 (sometimes also 28) sectors along the ecliptic. Each nakshatra is further subdivided into quarters (or padas). These play a role in popular Hindu astrology, where each pada is associated with a syllable, conventionally chosen as the first syllable of the given name of a child born when the moon was in the corresponding pada.

Whatever it is, the world will be taken a step forward on your account. There is no doubt that you set great score on honesty, using the term in its widest sense. You require your friends to be honest in purpose, honest in speech, as well as in money affairs. Your greatest weakness lies in the way you treat others. You cannot tolerate inefficiency and you are apt to consider those who do not see eye to eye with you as being hopelessly beneath contempt. It would not be difficult for you to cultivate a more charitable and tolerant view towards those who are likely to earn your disapproval. At any rate, it is well worth trying. You are a person of considerable action. You are never still. You are always making plans and the thing you can least tolerate is inactivity. You have much self will, and the spirit of independence is firmly planted in you. You resent the interference of others, perhaps more than you should, and freedom is a quality you prize very highly- freedom not only of action but also of thought.

Happiness And Fulfillment

Extremely nervous, you scatter your energies by doing too many things at once and rarely complete anything, for there is always something new to discover. Life Style

You are more inward than most. If you were to appear in front of a large group of people, you would suffer from stage phobia. You are best motivated when you are alone to do whatever you want to do, and at your own pace.

Kalsarpa Dosh/Yog

As per the current definition, when all planets are situated in middle of Rahu and Ketu in birth-chart or horoscope, the astrologers call it Kalsarp Dosh. In present days, discussions about this dosh are vogue among Jyotishi or Hindu Astrologers of India. Many of troubles in one's life are mostly because of Kalsarp Dosh. Without analyzing other areas of astrology, most astrologers, in fact, accept kalsarp dosh is main root of problems. But the reality is this that if all planets are well posited in horoscope, kalsarp dosh will not be harmful, and can be supportive to beneficial results endowed by good positions of planets. Kalsarp dosh is inauspicious when positions of planets are unfavorable in one's horoscope. Therefore, it is not wise to fear hearing just about 'Kalsarp Dosh'. It is in fact always better to reach on remedies only after consulting jyotishi for deep analysis on negative influences of Kalsarp dosh. Interestingly, influence of kalsarp dosh is different in different people. Because influence of kalsarp dosh is based on points-which sign is posited in which house, and what other planets occupied that house, what are their influences and so on.

Moon in your 1st house:

In general, the 1st house belongs to Mars and Sun. When the moon is also placed therein, this house will come under the combined influences of the Mars, the Sun and the Moon i.e. all the 3 mutual friends will be treated as occupants of this house. The Sun and Mars will extend all friendly support to their natural friend Moon placed on the throne i.e. the ascendant house.

Such native will be soft-hearted and will inherit all the traits and qualities of mother. He/She will be either the eldest child or will certainly be treated so. As long as the native receives the blessings of mother and keep her happy, he/she will continue to rise and prosper in every way.

The things and the relatives as represented by Mercury, who is inimical to Moon, will prove harmful to the native, e.g., the green color will affect adversely. Hence it is better to keep away from them.

Burning milk (for making Khoya) or selling milk for profit would reduce or minimize the power of the Moon placed in the 1st house, which means that the native's life and property would be destroyed if he/she engages himself in such activities. Such a native should serve others with water and milk freely for long life and all round prosperity. Such a native will get a life of about 90 years and will be bestowed with honours and fame by the Govt.

|| Shadbala and Bhavabala – Strength Calculations ||

Shadbala is a method in Vedic astrology that gives quick insight in the strength of planets and the houses. Sanskrit means 'Six' and hence Shadbala consists of 6 different sources of strength. Shadbala calculation is a laborious process but thanks to computers one can get these strength calculations by just one mouse click. Shadbala method gives a value to each planet and each house. The more points a planet and a house gets in Shadbala the stronger it is.
